

DECEMBER 2008

HOLIDAY MUSIC RETURNS

Beginning on Monday, December 1st, the music of David George will again fill our Lobby with the sounds of the season!

Stop by the Lobby between 11:30 a.m. and 1:30 p.m. each day to get into the holiday spirit. Mr. George, a Louisville native, received his Music Degree in Piano Performance at the University of Louisville where he studied with Lee Luvisi. Presently, he serves on the Piano Faculty at Bellarmine University, and is also Staff Accompanist for the Vocal Department at the University of Louisville. As a recitalist, chamber musician and accompanist, he has performed in a multitude of settings both in the U.S. and abroad, and is often found on the concert stage in student or faculty recitals.

A FRIENDLY RIDE - NO CROWDING PLEASE!

Allow Them to Exit

While waiting to board, stand AWAY from the door opening. DO NOT board the car unless you are sure no one is getting off on your floor. If there is someone exiting, allow them to clear the door before attempting to board.

Crowded Elevator

To determine whether you should board the car, see if there is enough room for you and your buffer space. As a rule of thumb, there should be room for two people for every one that is attempting to board. The suggested maximum occupancy for optimal comfort is 8-10 people per elevator car.

Holding the Door

Holding the door to wait for a co-worker is only appropriate when the car is empty or there is consensus among the passengers that it is okay to wait.

Blocking the Door

It is inappropriate to block an elevator door from the outside for any reason. Do not abuse the safety devices built into the

elevator door. Refrain from sticking feet, hands, umbrellas, briefcases or other items in front of a closing elevator door.

Health Issues

If you are using an elevator while sick, consider waiting for the elevator to arrive empty. The close proximity of an elevator makes it a good place for germs to be transferred.

The "My Floor" Rule

In a crowded elevator, when there are others between you and the door, announce that the elevator has arrived at your floor and excuse yourself while making your way through the crowd. Pushing is discouraged.

Get Out of the Way

When standing between someone trying to exit and the door, do your best to move out of the way for them. If necessary, exit the elevator, allow them to leave and re-board.
